When:

This workshop (see schedule for upcoming dates) meets four times .The class will run from 6 to 9pm.

Come join the Hot Glass Craze!

Workshop Description:

This class is a beginning introduction to glass fusing - no prior experience needed. Glass fusing is the melting together of different pieces of glass that are compatible with each other. This workshop will teach you how to make small dishes and tiles. We will cover glass cutting, compatibility of glasses, and firing processes. We will learn to use inclusions, learn tack fusing, full fusing and slumping of glass. The glass has to be fired overnight and cooled completely. Students will use glass tools & basic materials supplied by the instructor for this workshop. ***The glass is not included in the class fee. Glass may be purchased from the instructor for $40.00 -$100.00*or more depending on the size of each project you choose to make.

Hint: to keep glass costs down work small while you are learning.

Please bring along drawings or pictures or just your imagination to design your pieces. Students can bring their own cutters or hand tools if they wish. Bring any drawing tools that may help in making your designs. The first class we will start by doing some tests and learning about some of the possibilities in glass. Relax we'll have fun! Jewelry pliers - round nose, and small wire cutters, if you have them, would be great.

PLEASE NO OPEN TOED SHOES!!!!
