Workshop Description:

Glass fusing is the melting together of different pieces of glass that are compatible with each other. This workshop will teach you how to make hanging pendants and/or earrings. We will cover glass cutting, compatibility of glasses, and briefly touch on the firing process. The glass will be fired overnight and then cold worked the following class and fired again if needed.

Students will use glass tools & basic materials supplied by the instructor for this workshop. Additional glass may be purchased from the instructor by the student for \$5.00 -10.00 or more if extras are desired.

Students will need to bring their own special jewelry findings if desired, or if sensitivity is an issue, and any other jewelry connections that you may desire to make your piece unique, and any special tools you may need to work with. Jewelry pliers - round nose, and small wire cutters, if you have them, would be great to bring along. **PLEASE NO OPEN TOED SHOES!!!!**
